

AI-Assisted Portfolio Development Master Document

Project Title

Tahmid Habib — Cinematic Management-Focused Portfolio Website

01. PROJECT OVERVIEW

Objective

Build a premium cinematic portfolio website that presents Tahmid Habib as:

- a management-focused technology professional,
- an entrepreneur with real execution experience,
- a project coordinator with leadership capability,
- and a research-driven technical thinker.

The portfolio must feel:

- premium,
- futuristic,
- modern,
- cinematic,
- professional,
- and believable.

The website should combine:

- corporate structure,
 - startup energy,
 - technical depth,
 - and immersive interactions.
-

02. PROJECT POSITIONING

Primary Identity

Management-focused tech professional.

Secondary Identity

- Entrepreneur
 - Project Coordinator
 - Research Enthusiast
 - Technical Problem Solver
 - Startup-Oriented Thinker
-

Important Direction

The portfolio must NOT feel:

- like a developer-only portfolio,
- like a flashy startup founder page,
- or like an overhyped AI engineer portfolio.

Instead it should feel:

- strategic,
 - mature,
 - executive,
 - innovative,
 - technically aware,
 - and operationally capable.
-

03. PERSONAL INFORMATION TO INCLUDE

Name

Md. Tahmid Ahmed Habib

Location

Sylhet, Bangladesh

Education

B.Sc in Computer Science & Engineering
Metropolitan University

Professional Experience

- Project Coordinator / Project Management experience
 - NexÉtoile
 - Startup coordination experience
 - Team collaboration experience
 - Multi-disciplinary coordination
-

Entrepreneurial Experience

NARKO

Co-founder
Management-oriented clothing brand.

SPARK

Co-founder
Started as a small clothing business and evolved into a major local brand.

Research & Technical Interests

- Artificial Intelligence
- Machine Learning
- NLP
- Computer Vision
- Multimodal systems
- Research-oriented learning

Competitive Programming

Include:

- Codeforces
 - CodeChef
 - problem solving background
-

04. PROFESSIONAL LINKS

LinkedIn

urlLinkedIn Profile <https://www.linkedin.com/in/tahmidhabib>

GitHub

urlGitHub Profile <https://github.com/TAHabib0012>

Codeforces

urlCodeforces Profile <https://codeforces.com/profile/TAHabib>

CodeChef

urlCodeChef Profile <https://www.codechef.com/users/tahabib>

NARKO Facebook

urlNARKO Facebook <https://web.facebook.com/profile.php?id=61575888326817>

Animation Reference

Webflow Motion Reference

urlSaisei Webflow Inspiration<https://saisei-sbj.webflow.io/>

Dark Mode Reference

Color & Atmosphere Reference

urlTime To Build Reference<https://www.timetobuild.live/>

06. VISUAL DIRECTION

Overall Style

Blend:

- corporate professionalism,
- startup innovation,
- cinematic Webflow interactions,
- modern SaaS structure,
- and futuristic minimalism.

Website Atmosphere

The website should feel:

- immersive,
- premium,
- cinematic,
- structured,
- futuristic,
- calm,
- and executive.

Design Personality

- Reliable
- Intelligent
- Modern
- Professional
- Strategic
- Thoughtful
- Innovative

07. COLOR SYSTEM

LIGHT MODE

Base Colors

- warm white
 - off-white
 - silver gray
 - soft neutral surfaces
-

Accent Colors

- muted emerald
 - soft cyan
 - subtle gradient glow
 - silver lighting
-

Important Rule

Avoid:

- dark blue dominance,
 - neon overload,
 - oversaturated colors.
-

DARK MODE

Base Colors

- graphite black
 - charcoal
 - muted slate gray
-

Accent Colors

- soft green glow

- muted cyan
 - cinematic glass lighting
-

Important Rule

Dark mode should feel:

- premium,
- cinematic,
- elegant,
- and readable.

Not cyberpunk.

08. TYPOGRAPHY SYSTEM

Heading Fonts

Recommended:

- Clash Display
 - Cabinet Grotesk
 - General Sans
-

Body Fonts

Recommended:

- Inter
 - Satoshi
 - Plus Jakarta Sans
-

Typography Style

- executive
- modern
- spacious

- editorial
 - premium
-

09. WEBSITE STRUCTURE

FINAL SECTION ORDER

1. Hero Section
 2. Trust Metrics
 3. About Section
 4. Experience Timeline
 5. Management & Operations
 6. Research & Technical Depth
 7. Featured Projects
 8. Entrepreneurship Journey
 9. Skills Ecosystem
 10. Testimonials
 11. Contact & Resume
 12. Footer
-

10. HERO SECTION PLAN

Goal

Immediately establish:

- professionalism,
 - leadership,
 - innovation,
 - and modern identity.
-

Layout

Left Side

- Name
- Headline

- Supporting description
- CTA buttons
- Social links

Right Side

- portrait/video
 - floating metrics
 - cinematic visuals
 - animated gradients
-

Headline Direction

Do NOT position as:
"Just a developer."

Instead position around:

- leadership,
 - coordination,
 - systems,
 - execution,
 - and innovation.
-

Hero Motion

Use:

- layered gradients
 - floating cards
 - masked text reveal
 - cinematic blur
 - soft parallax
 - ambient motion
-

11. TRUST METRICS SECTION

Purpose

Build credibility subtly.

Suggested Metrics

- projects coordinated
 - startup experience
 - technical domains
 - collaborative teams
 - research interests
-

Motion

- animated counters
 - glow reveal
 - soft hover depth
-

12. ABOUT SECTION

Purpose

Tell the professional story.

Narrative Direction

Show evolution from:

- student,
 - entrepreneur,
 - coordinator,
 - researcher,
 - management-focused professional.
-

Layout Style

- editorial storytelling
 - split layout
 - cinematic spacing
 - layered imagery
-

13. EXPERIENCE TIMELINE

Include

- NexÉtoile
 - NARKO
 - SPARK
 - academic growth
 - leadership progression
-

Animation Style

- sticky timeline
 - scroll progression
 - cinematic card reveals
 - glowing path animation
-

14. MANAGEMENT & OPERATIONS SECTION

Purpose

This is the signature differentiator.

Focus Areas

- coordination
- leadership

- operations
 - communication
 - workflow systems
 - execution
 - planning
-

Visual Style

- dashboard-inspired
 - premium management cards
 - clean visual hierarchy
 - structured grids
-

15. RESEARCH & AI SECTION

Purpose

Support management identity with technical depth.

Topics

- AI/ML
 - NLP
 - CV
 - multimodal research
 - technical systems
 - university projects
-

Important Rule

Research must SUPPORT the identity.
Not dominate it.

16. FEATURED PROJECTS SECTION

Include

- university projects
 - AI projects
 - management systems
 - entrepreneurial systems
 - branding-related systems
-

Layout Style

- cinematic alternating blocks
 - large visuals
 - hover interaction
 - minimal text
-

Motion

- hover expansion
 - stagger reveal
 - image parallax
 - video reveal
-

17. ENTREPRENEURSHIP SECTION

Include

- SPARK journey
 - NARKO journey
 - leadership growth
 - operational understanding
 - customer understanding
 - coordination experience
-

Important Rule

Avoid:

- hustle culture aesthetics,
 - fake startup energy,
 - exaggerated success language.
-

18. SKILLS SECTION

Important Rule

Do NOT use:

- generic progress bars.
-

Better Approaches

Use:

- capability clusters,
 - interconnected systems,
 - expertise maps,
 - categorized ecosystems.
-

Suggested Categories

Management

- leadership
- operations
- planning
- coordination

Technical

- Python
- AI/ML
- NLP

- CV
- Git
- research

Business & Creative

- branding
 - strategy
 - communication
 - product thinking
-

19. CONTACT SECTION

Include

- LinkedIn
 - GitHub
 - Codeforces
 - Resume download
 - Contact form
 - Email
-

Style

- executive
 - spacious
 - minimal
 - premium
-

20. MOTION SYSTEM

Motion Philosophy

Motion should:

- support storytelling,
- feel cinematic,

- and feel expensive.

Never distracting.

SCROLL ANIMATIONS

Use

- layered reveals
 - masked transitions
 - blur reveals
 - sticky storytelling
 - parallax movement
-

Avoid

- excessive bounce
 - aggressive rotation
 - random movement
 - chaotic particles
-

HOVER ANIMATIONS

Use

- magnetic buttons
 - glow borders
 - soft scaling
 - tilt depth
 - glass hover
-

BACKGROUND MOTION

Use

- ambient gradients
 - cinematic blur
 - floating mesh lighting
 - subtle moving glows
-

21. RECOMMENDED TECH STACK

Frontend

- React
 - Next.js
 - Tailwind CSS
-

Animation

- Framer Motion
 - GSAP
 - Lenis smooth scroll
-

UI System

- shadcn/ui
-

22. RECOMMENDED PROJECT STRUCTURE

/project
/components
/sections
/animations
/styles
/assets

/hooks
/data

23. AI WORKFLOW STRATEGY

IMPORTANT RULE

Never ask AI tools to:
"Build the entire portfolio at once."

That creates:

- inconsistent design,
 - broken responsiveness,
 - corrupted architecture,
 - duplicated code,
 - and unstable animation systems.
-

CORRECT WORKFLOW

PHASE 01 — FOUNDATION

Generate:

- colors
- typography
- buttons
- cards
- spacing
- grid system
- dark/light mode

ONLY.

PHASE 02 — STATIC LAYOUTS

Generate:

- Hero
- About
- Experience
- Projects
- Contact

WITHOUT advanced animations.

PHASE 03 — RESPONSIVENESS

Generate:

- tablet layouts
 - mobile layouts
 - typography scaling
 - spacing optimization
-

PHASE 04 — ANIMATION

Generate:

- Framer Motion
- GSAP
- cinematic interactions
- smooth scroll systems

ONLY after layout stabilization.

PHASE 05 — OPTIMIZATION

Finalize:

- performance
 - accessibility
 - cleanup
 - consistency
 - responsiveness
 - animation polish
-

24. BEST AI TOOL USAGE

Claude

Best for:

- architecture
 - React structure
 - large component generation
 - UI systems
-

Gemini

Best for:

- visual ideas
 - motion concepts
 - UI inspiration
 - ecosystem support
-

Kimi

Best for:

- continuation
 - long-context refinement
 - polishing
 - structured continuation
-

ChatGPT

Best for:

- planning
- architecture
- storytelling
- systems
- optimization
- consistency

25. AI LIMIT PROTECTION SYSTEM

IMPORTANT

All AI tools must work modularly.

Never allow full project rewrites.

UNIVERSAL AI DEVELOPMENT RULES

IMPORTANT DEVELOPMENT RULES:

1. Work modularly.
 2. Never rewrite unrelated sections.
 3. Never regenerate the whole project unless requested.
 4. Maintain consistency with the existing design system.
 5. Preserve responsiveness.
 6. Preserve dark/light mode compatibility.
 7. Keep animations performant and cinematic.
 8. Use reusable architecture.
 9. Keep components isolated.
 10. Use clean file organization.
-

26. SAFE STOP SYSTEM

IMPORTANT

When approaching context/token limit:
AI must stop safely before corruption.

SAFE STOP COMMAND

If approaching token/context limit:

STOP IMMEDIATELY and output:

1. COMPLETED WORK
2. MODIFIED FILES
3. CURRENT FILE STATUS
4. REMAINING TASKS
5. LAST SAFE CHECKPOINT
6. NEXT STEP TO CONTINUE

Then wait for:

CONTINUE FROM CHECKPOINT

27. RESUME COMMAND

CONTINUE COMMAND

CONTINUE FROM CHECKPOINT

Use:

- previous architecture,
- previous animations,
- previous components,
- previous design system,
- and continue **ONLY** unfinished work.

Do NOT rewrite completed sections.

28. CRITICAL MODULAR RULE

Every section must:

- have isolated logic,
- isolated animation,
- isolated styling,
- and isolated component structure.

This prevents:

- corruption,
- duplication,

- and animation conflicts.
-

29. PLACEHOLDER ASSET STRATEGY

Use Placeholder Assets Initially

Use:

- executive portraits
 - startup office imagery
 - dashboard visuals
 - AI visualization graphics
 - modern workspace photos
 - cinematic background imagery
-

Replace Later With

- personal photos
 - project screenshots
 - branding visuals
 - team images
 - real dashboards
 - custom motion graphics
-

30. RESPONSIVE DESIGN RULES

Desktop

Primary cinematic experience.

Tablet

- reduced spacing
- simplified motion
- responsive stacking

Mobile

- vertical layouts
 - optimized readability
 - reduced heavy animations
 - simplified interactions
-

31. FIGMA MAKE STRATEGY

IMPORTANT

Do NOT generate the entire portfolio at once.

CORRECT FIGMA MAKE WORKFLOW

STEP 01

Generate design system.

STEP 02

Generate sections individually.

STEP 03

Combine manually.

STEP 04

Refine spacing & responsiveness.

STEP 05

Add motion planning.

32. FIGMA MAKE PROMPTING RULES

BAD PROMPT

"Create my portfolio website."

GOOD PROMPT

Define:

- structure,
 - typography,
 - spacing,
 - motion style,
 - visual hierarchy,
 - lighting behavior,
 - interaction philosophy,
 - and component behavior.
-

33. RECOMMENDED VISUAL KEYWORDS

Use these keywords while prompting:

- cinematic
- premium
- modern SaaS
- startup-inspired

- executive
 - consulting aesthetic
 - immersive
 - futuristic minimal
 - glassmorphism
 - ambient lighting
 - editorial spacing
 - Webflow-inspired
 - layered gradients
 - high-end UI
 - cinematic motion
-

34. FINAL PROJECT GOAL

The final portfolio should feel like:

"A modern management-focused technology professional capable of coordinating systems, leading execution, understanding technology deeply, and building innovative ideas with professional maturity."

FINAL QUALITY RULES

The portfolio must remain:

- authentic,
- believable,
- premium,
- cinematic,
- and professionally structured.

It must NEVER feel:

- immature,
 - exaggerated,
 - overhyped,
 - flashy without purpose,
 - or technically chaotic.
-
